OBI WORLD SHOWCASE

DENVER, CO

*THE FACULTY, LATEST TECHNIQUES,
& THE FUTURE OF BIOESTHETICS*

OCT 5 | ABD
OCT 6 & 7
GENERAL SESSION

AGENDA

ABD DAY

Thursday
October 5, 2023

DAY 1

Friday
October 6, 2023

8:30AM - 12:00PM **A Look at Digital Facebow Mounting Procedures**
(Free to Academy Members)
SPEAKERS: [Brian Mills, DMD](#)
[Santiago Ferris, DDS](#)
[Eniko Loud, DMD](#)
LOCATION: Mountain West Dental Institute/MDDS 925 Lincoln Street,
Unit B, Denver

7:00 AM - 8:00 AM **Breakfast**
LOCATION: History Colorado Center 1200 Braodway, Denver
Colorado Room

8:00 AM - 8:15 AM **President's Welcome & Introduction**
SPEAKER: [David MacLean, DDS](#)
LOCATION: Colorado Room

8:15AM - 8:45 AM **Future of Bioesthetics**
SPEAKER: [Michael Edwards, DMD](#)
LOCATION: Colorado Room

8:45 AM - 10:00 AM **From Joseph Campbell to Fritjof Capra:
My 30 year journey in Bioesthetics**
SPEAKER: [Jeff McClendon, DMD](#)
LOCATION: Colorado Room

10:00 AM - 10:30 AM **Break**
LOCATION: MDC Foundation Room, 4th Floor

10:30 AM - 12:00 PM **Bioesthetic Rejuvenation as Part of Patient's Wellness Journey**
SPEAKER: [Sharon Dickerson, DDS](#)
LOCATION: Colorado Room

12:00 PM - 1:30 PM **Lunch**
LOCATION: MDC Foundation Room, 4th Floor

1:30 PM - 3:00 PM **Interdisciplinary Approach for Treatment of TMD and Sleep Apnea**
SPEAKER: [Sue Vetter, DDS & Jihyon Kim, DDS](#)
LOCATION: Colorado Room

3:00 PM - 3:30 PM **Break**
LOCATION: MDC Foundation Room, 4th Floor

3:30 PM - 5:00 PM **Interdisciplinary Approach for Treatment of TMD and Sleep Apnea**
SPEAKER: [Sue Vetter, DDS & Jihyon Kim, DDS](#)
LOCATION: Colorado Room

6:30 PM - 10:00 PM **President's Dinner**
LOCATION: MDC Foundation Room , 4th Floor

DAY 2

Saturday
October 7, 2023

7:00 AM - 8:00 AM **Breakfast**
LOCATION: History Colorado Center 1200 Broadway, Denver
Colorado Room

8:00 AM - 10:00 AM **Leaving the Matrix**
SPEAKER: [Kenji Sashida, DDS](#)
LOCATION: Colorado Room

10:00 AM - 10:30 AM **Break**
LOCATION: MDC Foundation Room, 4th Floor

10:30 AM - 11:30 AM **Leaving the Matrix**
SPEAKER: [Kenji Sashida, DDS](#)
LOCATION: Colorado Room

11:30 AM - 11:45 PM **Update from Japan**
SPEAKER: [Masatoshi Araya, DDS](#)
LOCATION: Colorado Room

11:45 PM - 12:00 PM **2024 Annual Session Intro**
SPEAKER: [Brian Mills, DMD](#)
LOCATION: Colorado Room

12:00 PM - 1:30 PM **Lunch**
LOCATION: MDC Foundation Room, 4th Floor

1:30 PM - 3:00 PM **Ten years after**
SPEAKER: [Antonio Sanz, DDS](#) & [Kathy Slater Greve, DDS](#)
LOCATION: Colorado Room

3:00 PM - 3:30 PM **Break**
LOCATION: MDC Foundation Room, 4th Floor

3:30 PM - 4:30 PM **Ten Years After**
SPEAKER: [Antonio Sanz, DDS](#) & [Kathy Slater Greve, DDS](#)
LOCATION: Colorado Room

WELCOME FROM THE PRESIDENT

Dr. David MacLean
President,
OBI Foundation
for Bioesthetic
Dentistry

2023 OBI Annual Session - World Showcase

I wish to extend a warm and heartfelt welcome to all attendees at the 2023 OBI Foundation Annual Session in Denver Colorado.

This year we are showcasing the impressive achievements in Bioesthetic Dentistry by some of our faculty members from around the world. I believe you will find their presentations to be impressive and enlightening. Some of the new digital approaches they will be presenting are very exciting. Their dedication to our cause and their contributions toward helping grow our Foundation worldwide are most appreciated.

I would like to express my sincere gratitude to the entire OBI Foundation Board of Directors for their individual and collective contributions in furthering our cause. To Bern Egger, John Haupt, Drs. Maria Longo, Katherine Slater Greve, Rick Christensen, Sue Vetter, Sharon Dickerson, Brian Mills, Christina Sletten, and Mike Edwards, without your selfless dedication and incredible contributions, OBI Foundation would not be in the solid position it is in today.

Also, I want to thank the OBI faculty for their enthusiasm and dedication in sharing their passion and knowledge of Bioesthetic Dentistry with our student doctors and technicians. OBI currently has strong ambassadors and gifted teachers in such places as Chile, Mexico, Japan, and Europe in addition to Canada and the USA. How gratifying it is to see Dr. Lee's incredible gift being shared in so many parts of the world! Lastly, I would like to thank our Operations Manager, Donna Hovis for her fabulous work in keeping the Foundation on track, and in helping to bring all the pieces together to make this event a success. Donna we all owe you a huge debt of gratitude.

Our mission as a Foundation is to promote the health benefits of Bioesthetic Dentistry worldwide through education, research and service to the dental profession and to the public. If you are wondering what you can do to help us in this important work, I ask you to consider organizing a Level I presentation "Introduction to Bioesthetic Dentistry" in your local area. Donna can provide you with all the resources you need to make it happen. We would love your help! Please contact her at the OBI office for details.

Thank you for your wonderful support in attending our annual session, and thank you for being a part of the world wide OBI family! I truly hope that you feel rewarded and appreciated for being a member of this special group. I would love to be able to chat with you personally over the course of the next few days.

Dr. David MacLean
President, OBI Foundation for Bioesthetic Dentistry

WELCOME FROM THE CHAIRPERSON

Dr. Michael Edwards
Vice President,
OBI Foundation
for Bioesthetic
Dentistry

It is my honor and privilege to host this year's Annual Session of the OBI Foundation for Bioesthetic Dentistry.

There is so much going on at the OBI Foundation that the board and I decided we should devote an entire meeting to the many teaching locations around the world, applying the principles and getting the same great results for their residents and their patients.

I want to start off by thanking all the wonderful faculty or faculty track speakers we have this year and all those behind the scenes that help us pull not only this meeting together but all our levels of training, not just here in the U.S. but at various locations around the world. I also want to thank all those that volunteer their time and efforts in committees such as the Education Advisory Panel, Digital Task Force, and more that help this organization continue to evolve, grow and maintain excellence in the Biologic Model.

For the last many years, OBI has been seeking out technologies that support the Bioesthetic approach in a digital format. We have flown German engineers from Zebris to meet in Canada and have flown our faculty from all over the Americas to Germany for training and exploration on a digital approach to mago and case diagnosis and design, and this year it all comes together in Denver, Colorado for our Annual Session.

This year, our meeting will bring together the information you have seen presented over the past few Annual Meetings involving holistic therapeutics and an integrative approach to dentistry, Digital Bioesthetic Design Theory, Airway diagnosis, management throughout treatment and beyond, and even more...

From Chile and Japan to Mexico, Spain, Poland, and America, we are bringing the best the Bioesthetic World has to offer — Welcome to the OBI World Showcase 2023!

Dr. Michael Edwards
Vice President, OBI Foundation for Bioesthetic Dentistry
2023 Annual Session Chairperson

FROM THE HISTORY COLORADO CENTER
1200 Broadway, Denver, CO 80203

PRESIDENT'S DINNER

History Colorado Center 4th Floor
Friday, October 6th
Tour the Museum 5:30-6:30pm
Dinner 6:30-10:00pm

OBI Foundation President, Dr. David MacLean, welcomes you to Denver. Please join us on the 4th floor, at the History Colorado Center, to enjoy a fabulous dinner and a night of dancing and catching up with your OBI family. Come early to visit the museum for a complimentary viewing!

OBI FUNDRAISER - THE BEAD GAME!

How it works:

When the game begins, all participants wearing beads (purchased in advance) who wish to play, stand up. The Game Host announces that all participants must now choose either "Heads" and place their hands on their heads or "Tails" and place their hands on their tails. A coin is tossed and each loser of the coin toss must remove one strand of beads.

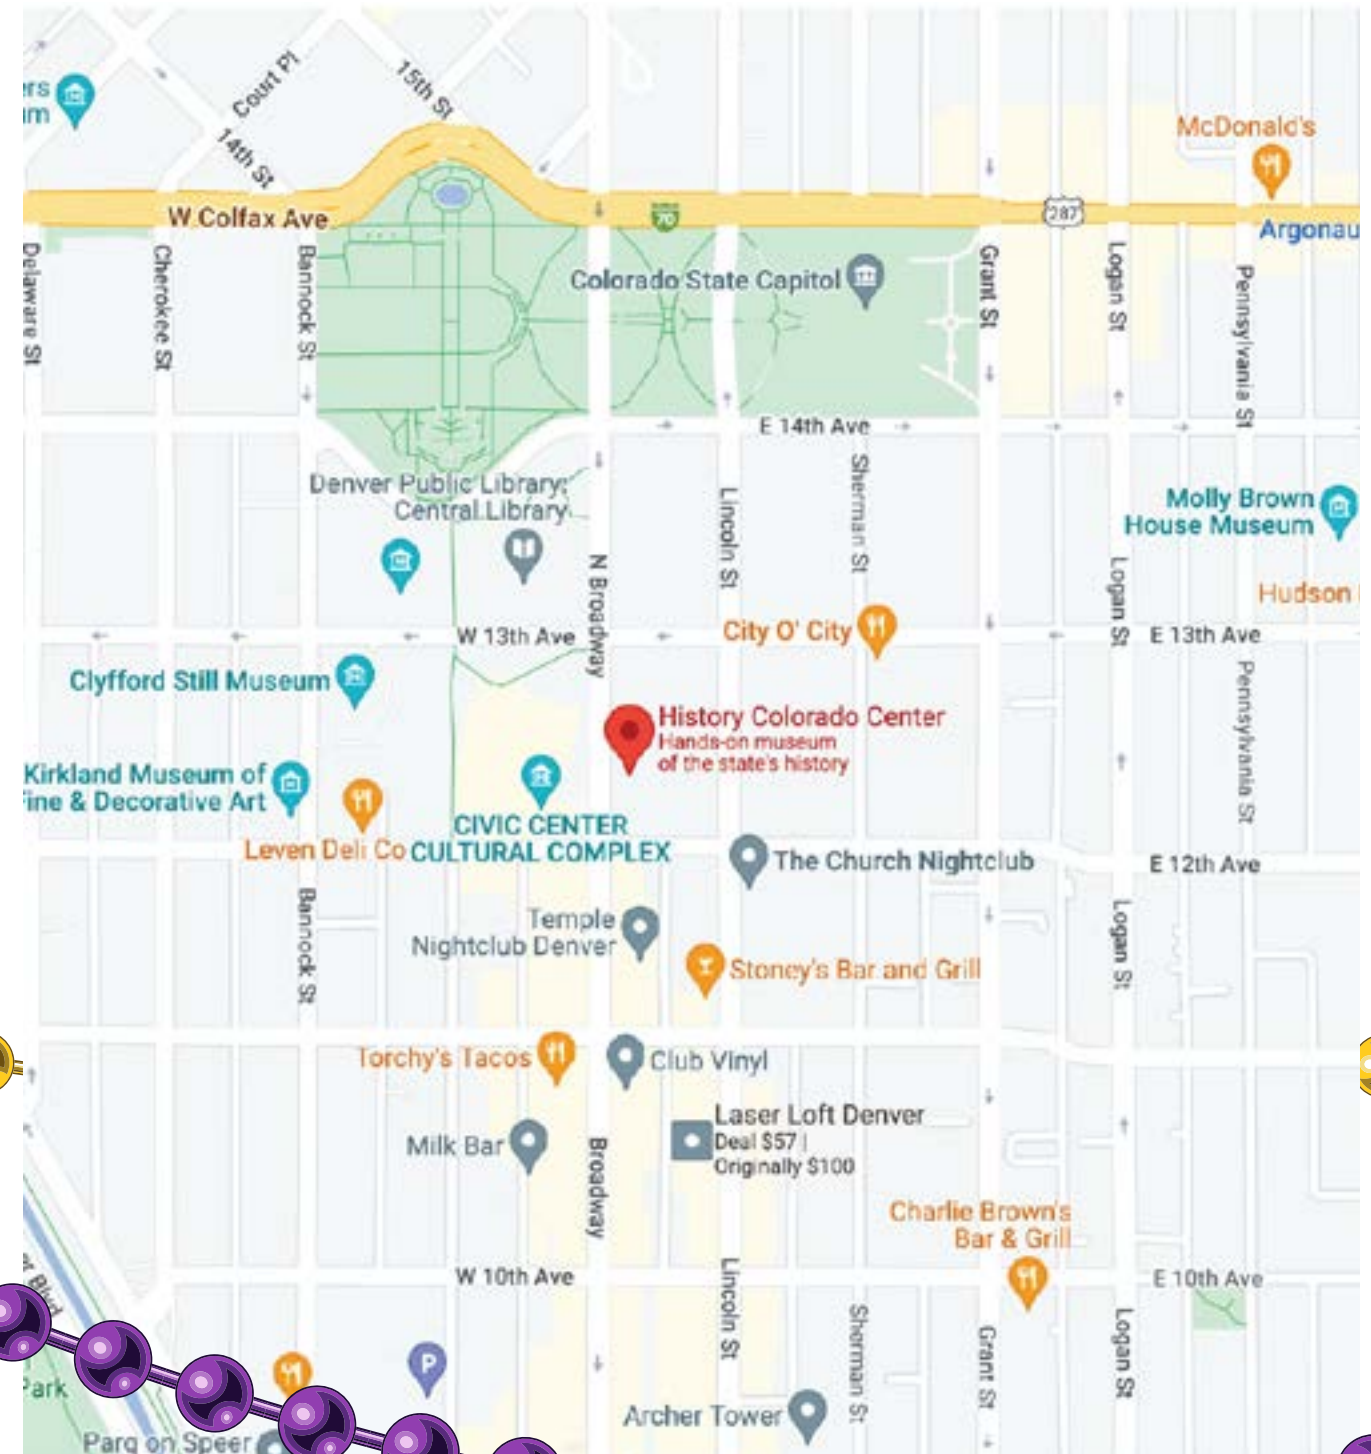

This continues until there are two people remaining. The final two come to the stage for the last round. At the final coin toss, one participant must choose HEADS, the other TAILS. The person with the most strands of beads is declared the winner and selects a prize.

Bead Purchase:

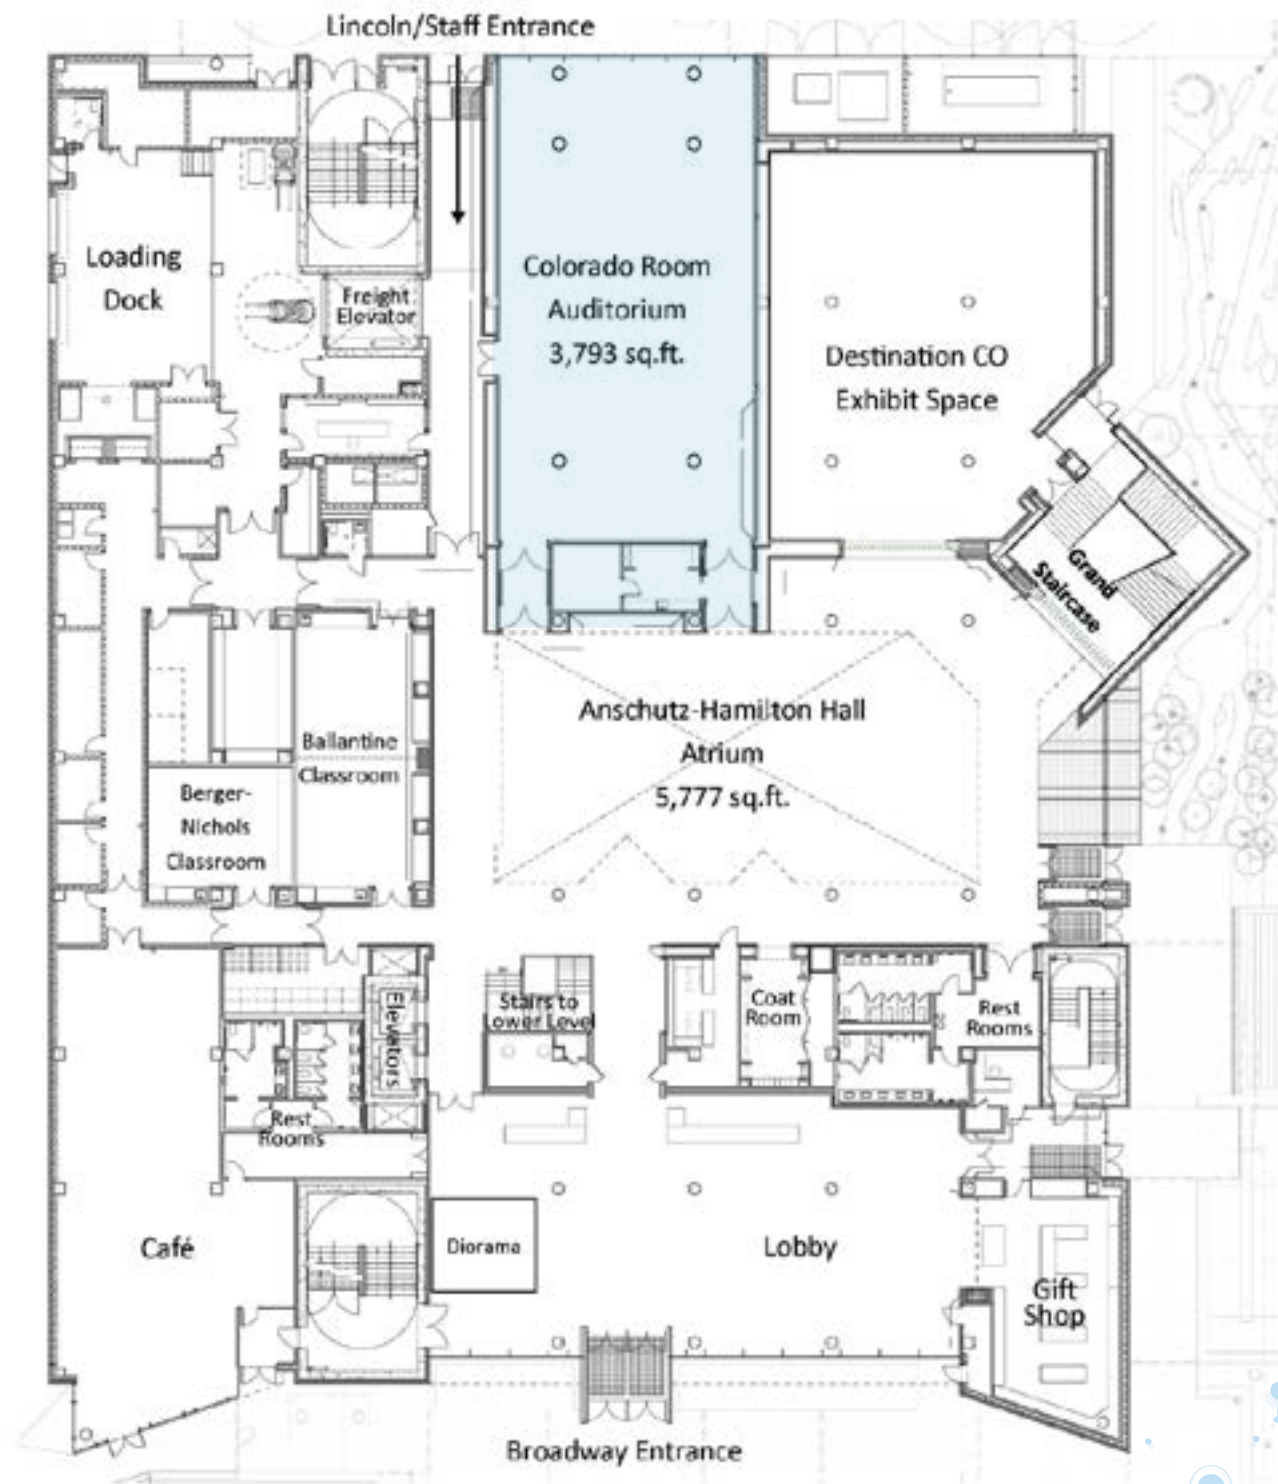

6:30 pm to 7 pm only at President's Dinner. The more strands of beads you have - the greater your chance of winning the game!

Cash or credit card accepted:

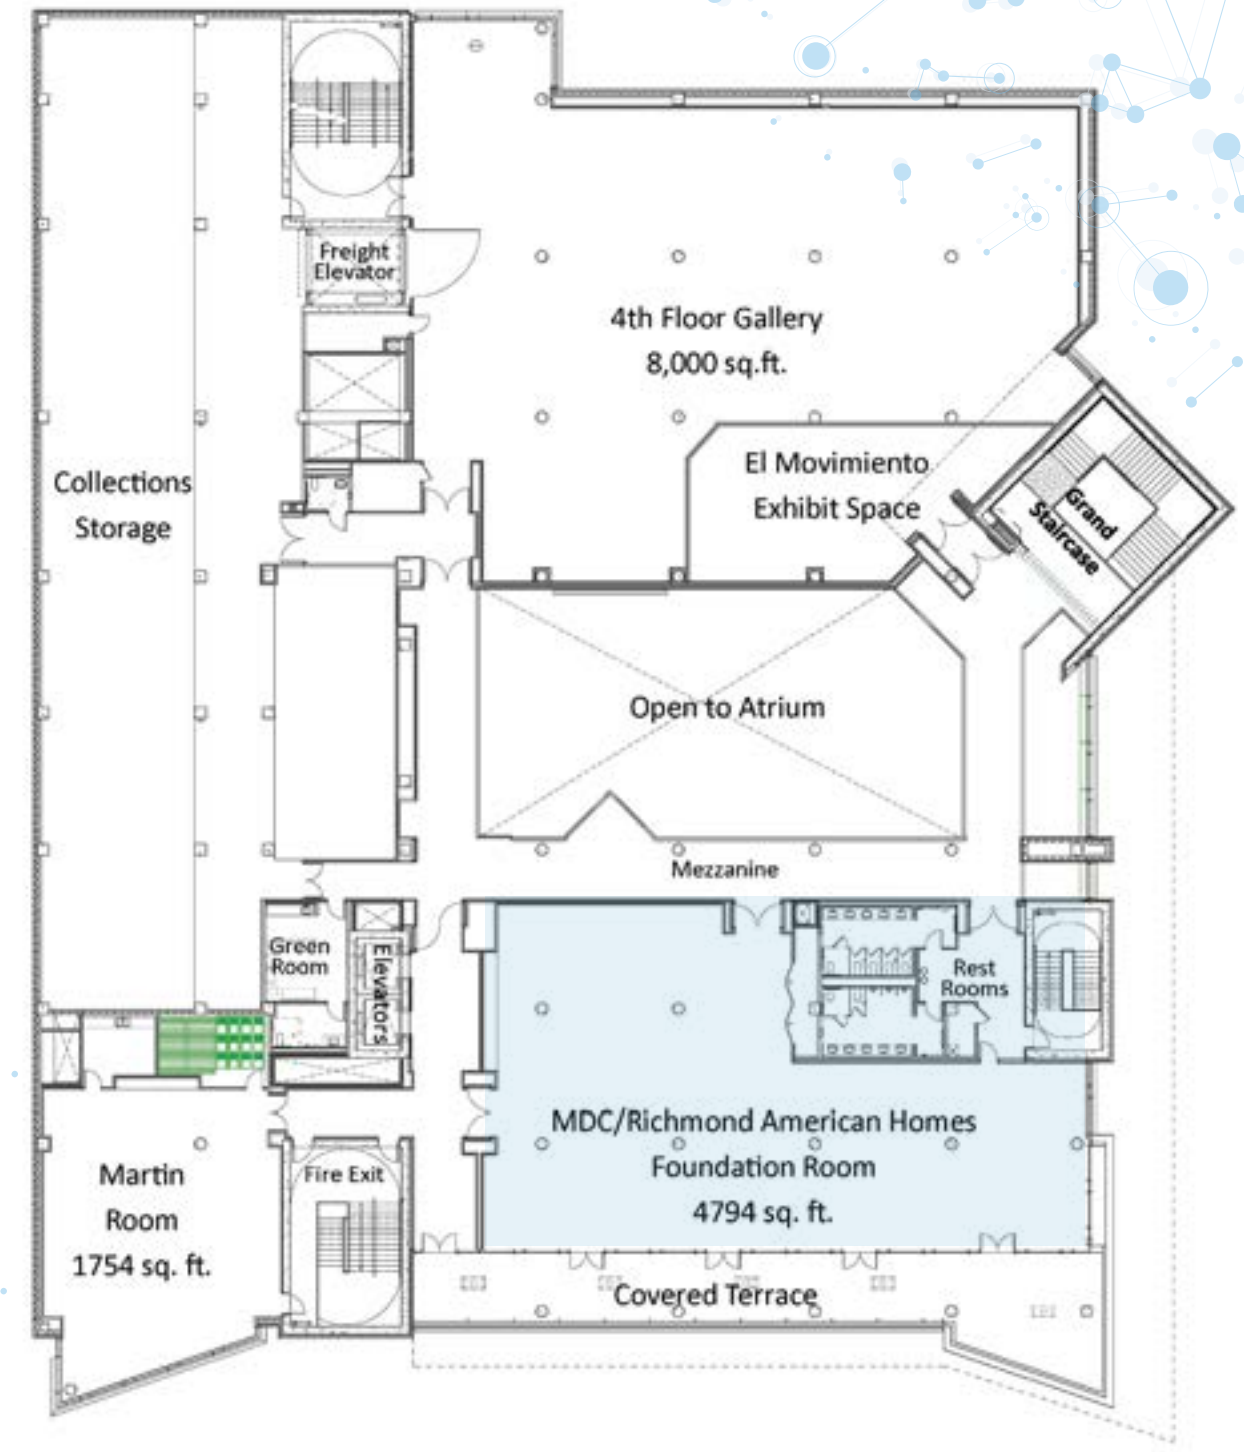

- 3 strands = \$50
- 8 strands = \$100

 **Patterson Inn**
321 17th Street

 **Sheraton Denver Downtown**
1550 Court Place

Panzano

This award-winning eatery prides itself on using organic and sustainable ingredients to create delectable dishes in Northern Italian style. Panzano's service is unparalleled and the ambience is warm and lively. Their motto is, "Those who eat well, live well," and this is surely proven in their unmatched Italian fare.

Guard and Grace

Prime, certified Angus, local grass-fed and Wagyu cuts of beef in 4 to 22 oz. portions appeal to multiple appetites, from a light bite to ravenous; and fresh seafood, charcuterie, artisanal cheeses as well as vegetarian selections offer something for everyone.

Buckhorn Exchange

Denver's oldest continuously operating restaurant is a Wild West classic that still serves up delicious steak. Since 1893, this storied steakhouse has made a name for itself by offering a variety of options including elk, ostrich, buffalo, yak, and Rocky Mountain Oysters. With its distinction as a National Historic Landmark and Western Museum, the atmosphere is sure to keep you intrigued throughout your meal!

Rodizio Grill The Brazilian Steakhouse

Inside the Historic Ice House of lower downtown Denver come the flavors and fun of Brazil bursting from Rodizio Grill. Latin-inspired servers dressed in traditional Gaucho garb offer rotating rounds of rotisserie-grilled meats—thus the name "rodizio"—served tableside. This, along with unlimited gourmet salads, fruits and vegetables, house-made desserts and exotic drinks, brings you an authentic Brazilian dining experience.

French 75

Here at French 75, Frank Bonanno brings together cooking traditions from London, Paris, and America in a festive yet elegant setting. Steak frites, escargots & other traditional bistro plates served against a warm, cozy backdrop.

Red Rocks Amphitheater

Red Rocks Amphitheater is an open-air amphitheater built into a rock structure near Morrison, Colorado, ten miles west of Denver. This unique area is beautiful for daytime hikes or nighttime concerts. As the World's Most Attended Venue in 2021, Red Rocks is well worth the visit!

Denver Oddities and Curiosities Expo

Sat, Oct 7, 10 AM – 6 PM
Colorado Convention Center
Strange, unusual, and bizarre!

The Oddities and Curiosities Expo takes great pride in showcasing hand-selected vendors, dealers, and artists from across the country that specialize in all things weird. Taxidermy, preserved specimens, quack medical devices, and creepy clothing are just some of the fun items you'll see!

Food & Nutrition Conference & Expo

Fri, Oct 6 – Mon, Oct 9
Colorado Convention Center
700 14th St, Denver, CO

The Food & Nutrition Conference & Expo will provide the attendees with the opportunity to experience dynamic educational opportunities not available elsewhere, gain access to new trends, perspectives from expert speakers and applications that they can apply to practice right away, plus, review products and services from over 330 exhibiting companies showcasing the latest and greatest offerings in food and nutrition.

Saturday Market at City Park

Every Saturday from May 13th - October 28th
8am - 1pm Rain, Snow, or Shine
City Park Esplanade
2551 E Colfax Ave, Denver, CO 80206

The Saturday Market at City Park is a perfect Denver Saturday morning experience. Food options for breakfast, brunch, and lunch. Live, local musicians play tunes for all to hear while local produce vendors sell seasonal, top notch foods that are good for your belly, the environment, and the local economy.

MEMBERSHIP

ACADEMY OF BIOESTHETIC DENTISTRY MEMBERSHIP

Sue Kim Vetter DDS,
FAGD
Chairman of The
Academy of Bioesthetic
Dentistry

Aloha everyone. I would like to welcome you to this year's Annual Session here in Denver. We are back at the "The Mile-High City", our teaching base, coming together to share our love for Bioesthetics® and, of course, renew friendships.

We continue from last year's theme of Illuminating the "Bio" in Bioesthetics. This year we will be Illuminating our educational model and our faculty from around the world with the OBI World Showcase. Our chair, Dr. Mike Edwards created a program with a great lineup of faculty presenters that will share the latest changes to our curriculum and show you a variety of Bioesthetic cases performed in private practice using the latest in digital and hybrid technology and clinical techniques.

For our Academy Day, Dr. Brian Mills, created a program to illustrate the current technological updates for creating the Digital Bioesthetic Patient. As we embrace the Digital Future we will show how you can implement digital aspects to your Bioesthetic workflow. Dr. Mills is part of our organization's Digital Taskforce which was created to develop an e-learning platform as well as Digital Workflow and training for our faculty and students. We are very excited to see what he has to share.

We've been very busy with courses this year. We celebrated the graduation of 3 Level II classes including our first Level II in Spain, as well as a Level III, a Level IV and a Function & Morphology Part 1. Congratulations again. Presently, we are busy with our current Level III course and a new Level IV will start next year. We always welcome you to come back to audit these courses to keep you apprised of the current curriculum and the latest techniques.

The Academy of Bioesthetic Dentistry was established to provide OBI graduates with a forum to continue learning and receive support in their individual endeavors to apply the Bioesthetic principles in their practice. Your membership fees support many functions within the OBI Foundation including curriculum development, faculty development, research and scholarships, website development/maintenance, marketing and recruitment as well as various front office requirements.

We continue to be very excited about the direction OBI is moving and ask for your continued support, involvement and participation as we continue to grow together. We all want to see this great philosophy continue to move forward and grow – and we want your help in that effort. We cannot do this alone.

Another opportunity to support our organization is becoming a 100 Club member. We cannot express enough gratitude to those that have chosen to contribute in this monthly way. These funds give us the stability needed to pursue the changes we all want to see in OBI. Your hard-earned dollars that you contribute as a 100 Club member make all the difference. We thank those of you that are 100 Club members and ask you to continue. To those who are not, we ask for your participation and contribution. OBI is worth it and we need you.

Thank you, everyone, in advance for attending this year's meeting in Denver. Without you, these meetings, indeed this organization, would cease to continue – so, Mahalo!!!

We also look forward to seeing you all October 4-5, 2024. Our chair, Dr. Brian Mills created an exciting program: TMD for the New Millennium - What Works and What Doesn't, so save the date.

Mahalo,

Sue Kim Vetter DDS, FAGD
Chairman of The Academy of Bioesthetic Dentistry

PURPOSE

The Academy provides members with educational opportunities and support for personal and professional growth in their endeavors to effectively practice Bioesthetic Dentistry. The completion of Level III or Level IV is not an end-point, rather a beginning in our collective Bioesthetic Education. ABD is the vehicle needed for continual engagement in our journey towards understanding. The ultimate goal of the Academy is to increase the number of patients who receive the health benefits of Bioesthetic Dentistry.

MEMBERSHIP BENEFITS

- Perpetuates skills and knowledge
- "Find a Professional" section listing on the OBI Foundation website
- Recognition through listing in Annual Session program
- Audit any Level II, III and IV courses and Level IV graduation presentation for only \$100.00 PER DAY and receive Continuing Education credit (subject to space availability; must register with OBI office)
- Fellowship, personal growth, mutual support
- ABD member special price savings for Annual Session registration
- Complimentary attendance at the Academy opening session at Annual Session
- Free access to exclusive ABD Webinars – focused on staff training and other issues
- Access to secure Academy Website with extensive webinar, video and publication material
- Amplifies practice effectiveness
- Use of the OBI Foundation logo on your own website

MEMBERSHIP FEE

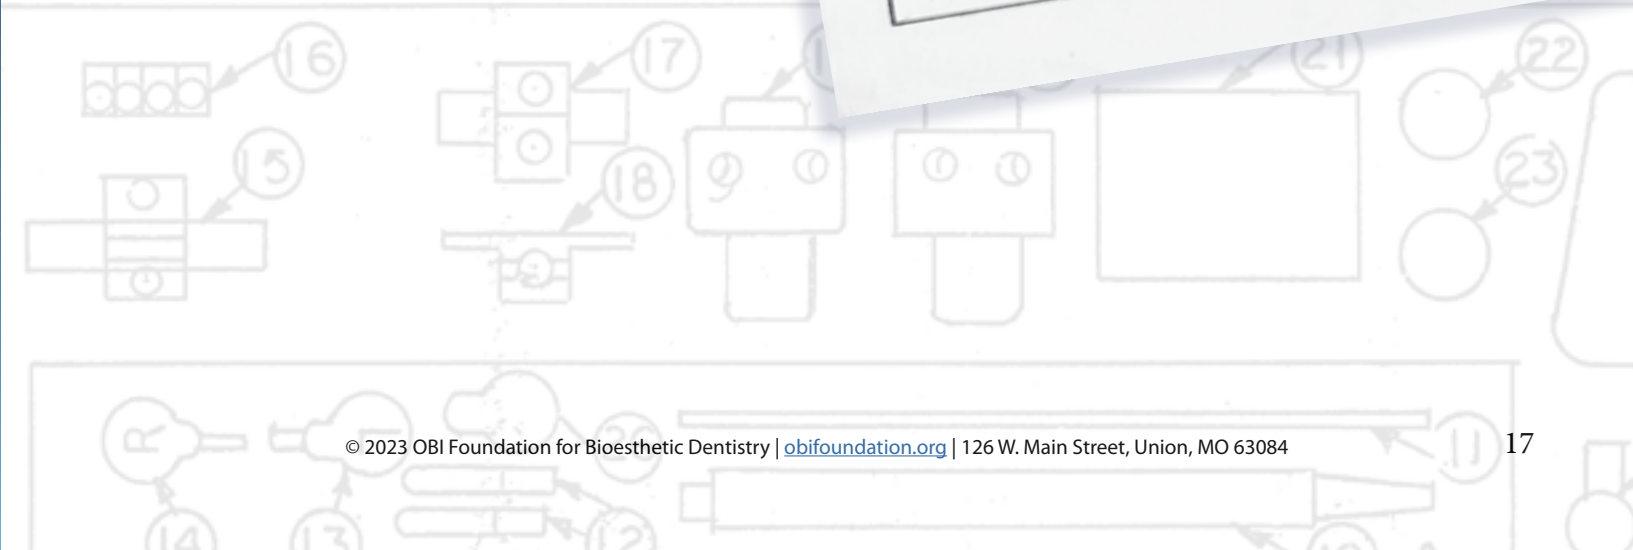

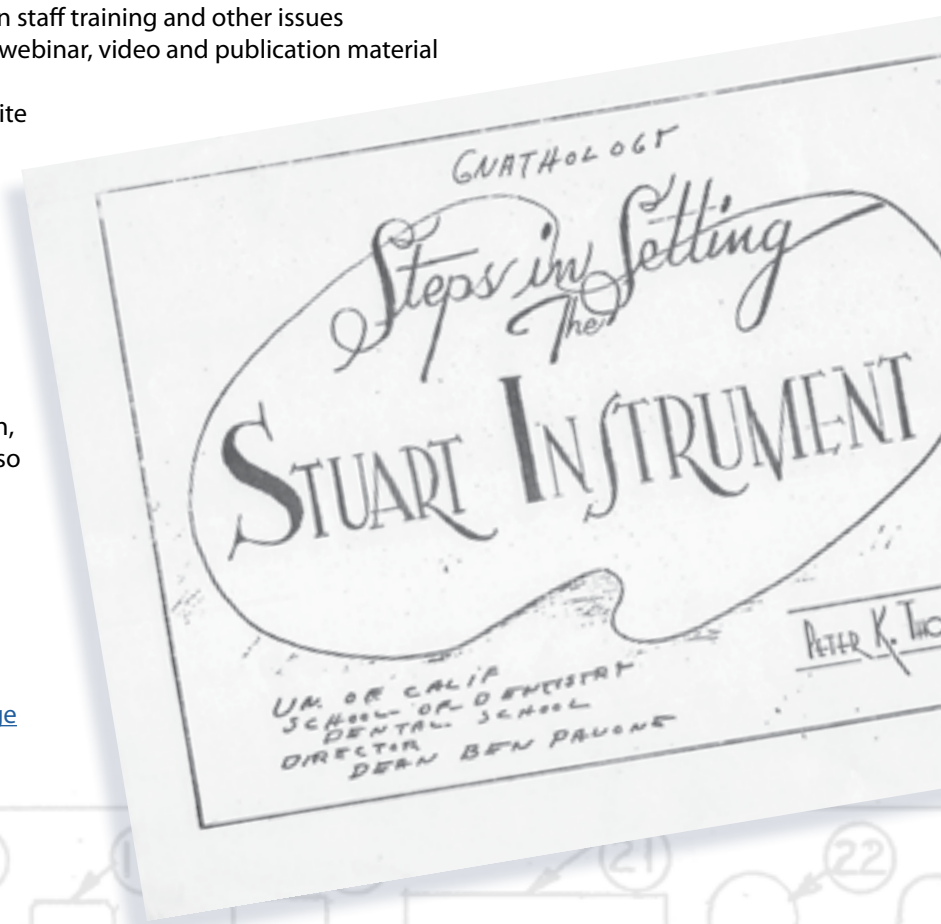

The annual membership fee is \$400, payable to OBI Foundation for Bioesthetic Dentistry. Or become an OBI 100 Club Member and enjoy complimentary ABD membership and more. Come join us!

OBI Foundation, a charitable non-profit organization, thrives on your generous support. ABD members also have the opportunity to make a tax-deductible gift.

Your contribution will help the Foundation fund curriculum, faculty development, research and scholarships.

For more info, please visit:

<https://www.bioesthetics.com/membership-package>

- **Make a vital monthly contribution to OBI in addition to annual membership fees.**

A Look at Digital Facebow Mounting Procedures

Dr. Brain Mills will do an introduction regarding various digital mounting procedures

Biography:

- 1980: Graduated Tufts School of Dental Medicine
- 1981: Completed one year GPR Irwin Army Hospital
- 1980-83: Active duty US Army
- 1983-present: Private practice
- 1993: Completed 2 yr advanced restorative program FACE Institute with Dr Thomas Basta
- 1993-2003: Instructor FACE Institute
- 1999: Fellowship International Congress of Oral Implantologists
- 2008: President Mid Peninsula Dental Society
- 2009-2012: Completed advanced restorative program OBI Foundation for BioEsthetic Dentistry
- 2014-present: Member of Educational Advisory Panel OBI Foundation for BioEsthetic Dentistry
- 2014-present: Co-Chairman Peer Review Committee Mid Peninsula Dental Society Brian

Dr. Mills has done extensive classes in occlusion and conservative TMJ treatment. He has completed OBI Bioesthetic Dentistry and F.A.C.E.

Santiago Ferris,
DDS

Dr. Santiago Ferris will be reviewing the ModJaw system

Biography:

On the shores of the Mediterranean, in Algeciras, Santiago Ferris was born. A boy overwhelmed by a dream, a professional inspired by a lifetime of work ensuring people's health. His goal and his restlessness lead him to move to Madrid where he will train to lay the first stone of the greatest project of his life. The foundations are built hand in hand with his wife, María Enezari, a native of Kenitra. Together with her, he founded the "Ferris & Enezari" clinic, a symbol and banner of progress, a sample of how the future is opening its way; a ray of light that illuminates the entire Mediterranean.

- Graduate in Dentistry Alfonso X el Sabio University
- Oral Implantology Diploma from the University of Seville
- Expert in dental aesthetics and new technologies UCAM
- Bioesthetic Dentistry Level III in Denver
- Postgraduate Oral Implantology
- Postgraduate Advanced Implantology

Eniko Loud,
DMD

Dr. Eniko Loud will be reviewing the Zebris system

Biography:

Dr. Loud believes that providing excellent dental care is so much more than just treating the mouth, it requires treating the whole person. She acknowledges that a one-size-fits-all dentistry is outdated and uses her training in functional medicine to identify disease patterns that caused oral health issues in the first place.

She is considered as a "physician of the mouth" – getting to the root cause of dental hygiene issues, unique to each patient, that require disease resolution. Rather than just filling cavities, she examines the lifestyle factors, genetic, and biochemical imbalances that create disease in the mouth and guides patients to heal the underlying root cause. Her goal is to guide patients on their wellness journey toward optimal dental health.

Dr. Loud has had extensive training in all forms of dentistry as well as in functional medicine. In 2006 she obtained her doctorate from Case Western Reserve University and in 2006 completed an AEGD residency, obtaining extensive experience in full-mouth rehabilitation and complex implant dentistry.

She went on to complete a Mastership in Implant Dentistry from American Dental Implant Association through Loma Linda University in 2009, then became the Dental Director for Bright Now Dental, overseeing the clinical development of 13 dental offices.

In 2013 she completed a Laser Associate Fellowship certification from the World Clinical Laser Institute, and in 2017 she completed a Mastership in Implant Dentistry from the Global Institute for Dental Education. Finally in 2019, she completed a 3-year functional medicine program and became a certified IFM provider, one of only 3 certified dentists globally and is pursuing additional training in bioesthetic dentistry.

She is a member of the American Dental Association, the American Academy for Oral Systemic Health, the Institute of Functional Medicine and the International Academy of Oral Medicine and Toxicology. She is also an OBI Academy Member.

President's Welcome & Introduction

David MacLean,
DDS

Biography:

Dr. David MacLean was born and raised in Calgary Alberta. He studied biological sciences at the University of Calgary, was granted admission to the University of Alberta, Faculty of Dentistry, and completed his DDS degree in 1977. Since 1983, he has been a practicing partner at Dorchester Health Centre in Calgary.

Since beginning in general practice, Dr. David MacLean has been a member of the Calgary Gnathological Study Club, and has served terms as its president and secretary. His other professional interests have been in biologic dentistry, and in practice management. He believes strongly that people have the right to make informed decisions about their own health.

Dr. MacLean was appointed to the faculty of OBI Foundation in 2005, and in 2006 helped to establish OBI Canada. In 2013 he was elected to the position of President of OBI Foundation. Since 2016 he has also served as the Director of Education for OBI Foundation.

Future of Bioesthetics

Michael Edward,
DMD

Biography:

Dr. Edwards enjoys helping people get back on track with their health by not just treating the current problem, but by also looking at the underlying issues causing the problem. He specializes in treating TMJ and has extensive training and experience to help even the most complex problems. Many patients are treated for symptoms, but are never fully diagnosed, discover the root cause, or uncover patterns that led to the problem in the first place. Dr. Edwards focuses on providing a complete, thorough, comprehensive process that covers all areas of health to ensure his patients receive the care they are seeking.

Dr. Edwards is the CEO of The Schuster Center for Professional Development in Scottsdale, AZ and the Vice President of the OBI Foundation for Bioesthetic Dentistry. Dr. Edwards teaches advanced dentistry in Colorado and holds workshops in Union, MO and around the country, based on his books: Through The Red Sea and Are you Essential. He is also the creator of the Performance Coach Planning System.

Jeff McClendon,
DMD

From Joseph Campbell to Fritjof Capra; My 30 year journey in Bioesthetics

"We must be willing to let go of the life we planned so as to have the life that is waiting for us" Campbell

"What we observe is not nature itself, but nature exposed to our method of questioning" Capra

From 'mouth to mago to model to mouth' a 30 year Bioesthetic story featuring 'the many faces of Sarah G', will be presented from analog to digital, and mother to daughter.

Biography:

Dr. Jeffrey L McClendon was born and raised in Pittsburgh, PA. He then graduated Allegheny College (1977) with a B.S. in Chemistry, the University of Pittsburgh School of Dental Medicine (1981), Advanced Education Program in General Dentistry, 2-Years, Ft. Knox, (1988-90), and served in the US Army Dental Corps (1981-1994). In 1997, he graduated from the Lee Institute (level 4, full mouth rehabilitation).

He is in private practice in Manhattan, providing restorative and Bioesthetic care. He has been a speaker and hands-on course instructor both nationally and internationally to groups of restorative dentists, orthodontists, and oral surgeons.

He is a member of American Dental Association, Academy of General Dentistry, Academy of Bioesthetic Dentistry, and Roth-Williams International Society of Orthodontists. Dr MAC was a co-founding member of the Occlusal Concepts Study Group (1998-2015) in NYC. He is an instructor for Foundation for Orognathic Bioesthetics International, Clinical Instructor at New York University Dental School (Asst program director, and Pre-clinical director of the NYU Esthetic Continuum), instructor for Full FACE USA, and directs CORE (Collaborative Orthodontic and Restorative Efforts) workshops.

Sharon Dickerson,
DDS

Bioesthetic Rejuvenation as Part of Patient's Wellness Journey

1. Navigating the intake process in patients with complex medical histories including cancer, heart disease, autoimmune dysfunction, chronic Lyme disease, mold toxicity and heavy metals toxicity
2. Sequencing multi-phase treatment plans in the medically compromised patient in collaboration with their health practitioners
3. Multi-disciplinary case studies

Biography:

Dr. Sharon Dickerson, a Michigan native, graduated from the University of Michigan School of Dentistry in 1988. In partnership with her father, she practiced general dentistry in her hometown of Battle Creek for many years. Following her father's retirement in 2005, Dr. Dickerson assumed sole ownership of the practice for an additional decade. In 2015, Dr. Dickerson relocated to Colorado, nurturing her love of the Rocky Mountains and allowing her to more fully integrate her values of Biological Dentistry. Since living in Denver, she associated in two separate biological dental practices and ultimately decided to cultivate her own private practice.

Dr. Dickerson has an extensive background in occlusal restorative dentistry, including Pankey, Dawson, and Orthognathic Bioesthetics (OBI). She remains active in OBI, currently serving on the Board of Directors for the organization. She has been a member of the IAOMT (International Academy of Oral Medicine and Toxicology) since 2003 and is SAFE certified for safe mercury practices. She also implements her training in the use of oxygen/ozone treatments as it pertains to optimum dental procedure outcomes.

Dr. Dickerson's background incorporates over 25 years of owning and managing a private dental practice. She understands the intrinsic importance of delivering optimal care throughout each phase of the patient experience. Dr. Dickerson believes in the high value of thorough and holistic patient consultations in order to deliver superlative treatment results.

It is Dr. Dickerson's passion to offer patients the highest level of biological and Bioesthetic care, within an environment that fosters comfort, vitality, and true connection. She also finds immense fulfillment in collaborating with dental colleagues and introducing the public to the principles of holistic & oral vitality.

1:30 PM - 3:00 PM
3:30 PM - 5:00 PM

Sue Kim Vetter, DDS

Interdisciplinary approach for treatment of TMD and sleep apnea

Case presentation: Interdisciplinary approach for treatment of TMD and sleep apnea

- Treatment solution beyond a CPAP
- Interdisciplinary Case management for the TMD patient

Case presentation: From the Rooftop to the Basement: Natural Biologic Occlusal to Gingival Form

- Clinical techniques addressing challenging additive coronaplasty scenarios
- Getting good bonding, gingival adaptation and natural emergence can be challenging with traditional Injection overmolding techniques.
- We will discuss and show you some optional approach to creating great gingival emergence in cases with black triangles and multiple diastemata

Biography:

Dr. Vetter received her BS and DDS degrees from the University of Washington where she remains an Affiliate Associate Professor. She is an alumna of the Dawson Academy, Kois Center, Schuster Center for professional development, OBI Foundation for Bioesthetic Dentistry, and The Mastery Company. Dr. Vetter is a faculty member for OBI Foundation for Bioesthetic Dentistry and serves on its Board.

Aloha is love, peace, compassion, and a mutual understanding of respect. Aloha is the guideline for how she lives and practice. Originally from Honolulu, Hawaii, Dr. Vetter has made Seattle her home since 1991. Her warm, calming aloha spirit sets her apart. She believes in living a healthy balanced life by valuing her time, eating well, and maintaining strong relationships with family and friends. Married in 1999, Dr. Vetter and her husband and their two children enjoy spending time together cooking, traveling or playing outdoors.

Jihyon Kim, DDS

Biography:

Dr. Jihyon Kim is a microscope dentist with a practice emphasis on aesthetic smile rejuvenation via direct composite dentistry. She is director of the Injection Overmolding Institute in Seattle, Washington. She also created the Smile Design Gauge, a multifunction clinical tool for predictable chairside smile design and honed a systematic approach to additive direct composite dentistry about which she has published multiple articles.

8:00 AM - 10:00 AM
10:30 AM - 11:30 AM

Kenji Sashida, DDS

Leaving the Matrix

In a digital world of technological advances, Bioesthetic Dentistry with its disruptive approach, leaves this binary computer network and rewrites the path of digital dentistry.

In the 6 years of my practice as digital rehabilitator in Bioesthetic Dentistry, the great difficulty in the use of precise and verified joint assembly, opened guidelines to my research and path towards the very personal protocol - What does "Digital Bioesthetics" mean?

- My origin and the group I represent
- Video and testimonials on my role as faculty of OBI Mexico
- Timeline and clinical cases of OBI Mexico students
- Digital clinical cases of orthodontics and rehabilitation
- Level III and IV clinical cases
- Bioesthetics in implantology
- All-on-Four and Bioesthetic digital flow

Biography:

Kenji Sashida is passionate about dentistry research and development. He obtained his Bachelor's degree in Dental Surgery at Universidad Nacional Autónoma de México (UNAM) in Mexico City, where he placed his first dental office.

As a result of his interest in being at the forefront, he is specialized in Orthodontics and Maxillofacial Orthopedics, besides several advanced training courses such as periodontist, implants, sinus floor elevation, bone regeneration, prosthesis, bio-esthetic orthodontics by Roth Williams methodology, and OBI level I-III, among others.

In addition to lecturing at a congress in Mexico, Dr. Sashida provides advice to master's students in orthodontics at Universidad De La Salle Bajío. Today Dr. Sashida is a member of OBI México, committed to enhancing dentistry practices in his country and Latin America.

Specialty:

Dental Orthodontics

Areas of Expertise:

Periodontology
Surgical implantology
Maxillary Sinus Elevation
Bone regeneration and Prosthetics

Masatoshi Araya,
DDS

Update from Japan

Biography:
Specialized field: Occlusion/Corrective/Implant

Message: We work as a team to support the physical and mental health of each patient.
Please feel free to talk to me about anything.

Education/work history:

- Graduated from Saitama Prefectural Kasukabe High School
- 1991 Graduated from Nippon Dental University
- 1993 Robert Lee Bioesthetic Dentistry Basic Course 1999-2000
- OBI Bioesthetic Dentistry Basic Course (Level 2- 3) 2003
- Graduated from OBI Bioesthetic Dentistry Basic Course (Level 4)
- 2005 Araya Dental Clinic Opening up to the present

Affiliated academic society:

- Orognathic Bioesthetics International (Salem, Oregon)
- Ministry of Education, Culture, Sports, Science and Technology Research Institute for Sustainable Life

Lecture history:

- The 6th International Dental Association Lecture Theme "Occlusion Treatment from a Biological Perspective" ([Details](#)) 5-D Japan
- 2nd General Assembly Lecture Theme "The Key to Occlusion Management in CO Dentistry"

Magazine publication history:

- "The Quintessence" Supplement ([Details](#))

Brian Mills,
DMD

2024 Annual Meeting TMD for the New Millenium - What Works and What Doesn't

There have been significant advancements in the field of TMD. From CBCT imaging that didn't exist until the early 2000's to IOS scanners that are fast and accurate.

New technologies in dentistry have allowed visualization and evaluation of teeth, jaws, faces and TMJ's that simply didn't exist prior to the computer age in dentistry.

These exciting new developments allow us to evaluate, diagnose, and treat our TMD patients at a new level, whether it be orthodontically, surgically or restoratively.

We hope to open your eyes, ears and minds to what's possible now and in the future in the arena of TMD.

**“Ten Years After”**

This conference will review the knowledge and experience acquired in the last 10 or maybe 15 years of practice of Bioesthetic dentistry at the south of the world in our thin and long country, CHILE.

Learning Objectives:

- A. Ten years after of Bioesthetic Treatment in our patients. How we did our journey, how were the results of it. What kind of complications we had? How we solve those problems. How our patients are today.
- B. Teaching Bioesthetic Dentistry to our colleagues in Chile trying to spread the knowledge in our country and Latin America.
- C. Ten years after : How we include in our treatments the digital era. How we are solving the difficulties of translating the analogic way of work to the digital workflow that we are using today .

Kathy Slater Greve,
DDS

Biography:

I am a dental surgeon with 39 years of experience in Prosthodontics, in which the last 8 years have been dedicated to Bioesthetic Dentistry. Passionate about my profession, 100% of my private practice is dedicated to Bioesthetic Dentistry and teaching as a faculty member in Latin America. I am married to a dentist and mother of seven children. Three of my children are colleagues. We have formed a large clinic with different specialties for the comprehensive treatment of patients

1982

Graduated as Dental Surgeon from the Faculty of Dentistry, University of Chile.

1988

Graduated as specialist in Oral Prosthodontist, certified by CONACEO Chile.

1996

Graduate of the Center of Physiopathology Craniofacial, Cranio mandibular and Facial Pain of Professor Mariano Rocabado.

2001

Graduated from the Continuing Education course of Dr. Roth and Dr. Williams.

2016

Level IV graduated in Oral Rehabilitation Bioesthetics of the “Foundation for Bioesthetic Dentistry”, Oregon USA.

Co-Director OBI Foundation for Bioesthetic Dentistry, Latin America

Board Member OBI Foundation USA

Faculty Member for OBI Foundation USA.

Member of OBI Foundation Academy of Bioesthetic Dentistry

Member of the Chilean Society of Oral Rehabilitation

Antonio Sanz,
DDS

Biography:

1973 – 1979

Graduated as Dental Surgeon at the Faculty of Dentistry Universidad de Chile.

1980 – 1983

Receives the degree of: Specialist in Periodontics, Universidad de Chile

1990

Receives the degree of: Specialist in Oral Implantology, Complutense University, Madrid. Spain.

1992

Training in Oral Implantology at Branemark Oseointegration Center, in Skövde Sweden and at Clínica Branemark Gothenburg Sweden

1999

Receives degree from: Adjunct Professor of Oral Implantology, Faculty of Dentistry, Universidad de Chile.

1990 – 2000

Postgraduate Coordinator in Oral Implantology at the Faculty of Dentistry, Universidad de Chile.

2001 – 2004

Professor of Periodontics Faculty of Dentistry, Universidad Mayor.

2003 – 2005

Professor responsible postgraduate Oral Implantology, Universidad Mayor.

2006 – 2007

Professor of Periodontics and Implantology Graduate Periodontics from the Faculty of Dentistry, Universidad de Chile.

2005 – 2007

Receives the degree of: Specialist in Bioesthetic Oral Rehabilitation, «Foundation for Bioesthetic Dentistry» Oregon, USA.

2008 – present

Professor of Periodontics undergraduate and graduate, Universidad de los Andes.

2009 – present

Director of the Specialization Program in Periodontics, Faculty of Dentistry, Universidad de los Andes

2009 – present

Director of the specialization program in Oral Implantology, Faculty of Dentistry, Universidad de los Andes.

2009 – present

Receives the degree of: Faculty Member of the Foundation for Bioesthetic Dentistry, USA.

International Speaker (Argentina, Peru, Ecuador, Uruguay, Brazil. Bolivia, Venezuela, Mexico, Panama, Puerto Rico, Colombia, United States, Paris, Spain).

Author of publications in national and international magazines in relation to Implantology and Periodontics.

Co-author of books on Oral Implantology 2008

Coauthor Oral Physiology Book 2010.

Master of the Latin American Academy of Implantology.

Member of the American Academy of Oral Implantology.

Past President of the Chilean Society of Periodontics.

Scientific Director of the Chilean Society of Periodontics.

Private Practice in Periodontics, Implantology and Bioesthetic Oral Rehabilitation.

Director of the Clinic of Periodontics and Oral Implantology, Antonio Sanz y Asociados.

ADDITIONAL INFORMATION

OBI FOUNDATION FOR BIOESTHETIC DENTISTRY

MISSION

To promote the health benefits of Bioesthetic Dentistry worldwide through education, research and service to the dental profession and to the public.

GOAL

To teach the biology and clinical practice of Bioesthetic Dentistry to dentists, dental technicians and their team members. We teach and accept Optimal Biologic Form as the basis for diagnosis and treatment of the stomatognathic (chewing) system.

EDUCATION

Our emphasis is on the benefits of early diagnosis and prevention of dental system breakdown. We do this by providing a comprehensive educational experience that involves treating actual patients from the dentist's own practice. Students learn about optimal biologic tooth form, the occluded dentition and structure of the TMJ, and how they are an interrelated system.

FACULTY

We pride ourselves by offering a 4:1 student to faculty teaching ratio. Each student is also assigned a faculty member at the beginning of the core curriculum, who then acts as their guide throughout the educational process.

OBI FOUNDATION 2023 BOARD OF DIRECTORS

ANTITRUST DISCLAIMER

The information provided during the OBI Foundation Annual Session is intended to expose attendees to various ideas, concepts and techniques. OBI Foundation does not recommend or endorse any particular course of conduct, nor shall it be held liable for the method in which the attendee uses the information presented at this meeting. The content of a course or the use of specific products in lectures, breakout sessions, table clinics or any research program should not be construed as indicating endorsement or approval by the OBI Foundation of the views presented or the products used. Speakers are required to disclose to participants any financial, commercial or promotional interest in a product or company that may influence their presentations. However, OBI shall not be liable for a speaker's failure to disclose such interest. Please be advised that speakers or scheduling may change without notice. OBI Foundation is an ADA CERP recognized provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. OBI Foundation designates the listed course activity Thursday, Oct 5 - 3 hours; Friday, Oct 6 - 6.5 hours; Saturday, Oct. 7 - 6 hours of attendance in continuing education. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

THANK YOU

It has been a pleasure to be a part of the 2023 OBI Annual Session. This year's meeting would not have been possible without the hard work of Donna Hovis, Emily Allen, Sue Vetter and so many others on the board and on the executive committee. Their passion and experience are what made this such a successful event. Every year requires two years of planning and action, countless meetings, and hours of work, it truly could not have happened without them!

I also want to express special gratitude for the speakers this year who put together wonderful presentations, sharing their own special work flows and methods and cases. This group of presenters are the faculty for the OBI Foundation and have dedicated a large amount of their professional and personal lives spreading the word and care that is Bioesthetics®. As you know, presenting is a huge commitment and takes hours of preparation. We were so blessed to have some of the very best in their field here with us.

Last, but certainly not least, these events don't happen without all of you! Thank you to all the attendees who have come from all over to learn and support OBI. You are our OBI family and we cherish your passion and commitment to OBI. OBI exists because of you! Looking forward to seeing you all in Denver 2024!

Dr. Michael Edwards
2023 Annual Session Chair
